

Office365 Core Bundle

Productivity

Backup

Security

Training

PRODUCT OVERVIEW

Moving your business to the cloud can dramatically improve the way your employees work and communicate and will allow you to scale easily, but knowing how to move forward and what tools you need to be successful can be challenging. The core bundle from AppSmart provides a full suite of tools to make your transition to the cloud smooth and effective.

In addition to the industry leading Office 365 suite, our core bundle includes backup, email security and product training as well as 24/7 support to ensure that your business can rapidly realize the benefits of the cloud without any disruption.

WHAT'S INCLUDED

- Full suite of cloud productivity applications
- 1TB of cloud storage per user
- Chat and video conferencing
- Calendar sharing
- Cloud backup
- Endpoint security
- 24/7 North American based support
- On-demand product training

KEY BENEFITS

- **Complete solution**
From productivity to communication, this bundle provides all of the tools you need to move your business to cloud and ensure your data is safe.
- **Rapid deployment**
The AppSmart solutions engineers have the expertise to get your new solutions up and running and your data migrated quickly and accurately.
- **Work from anywhere**
Give your employees the flexibility to work from anywhere, while having the confidence that they'll have the tools they need to drive your business forward.
- **Mitigate disruption**
With access to our expert solutions engineers and 24/7 tier 1 and 2 support. You can have confidence that your business will run smoothly and your employees will have what they need to be productive.

Already using Office 365? AppSmart can transfer your existing licenses and provide you with all of the benefits of the AppSmart managed solution.

Why Work With AppSmart?

At AppSmart, we make working in the cloud easy. We offer end-to-end cloud and SaaS services and the connectivity that makes it all work seamlessly. Our expert cloud engineers partner with you, either acting as your entire IT department, or as a cloud-focused extension of your existing team.

A Team of Experienced Experts You Can Trust

Cloud technologies have transformed the way companies do business. Today, with the right tools, employees can securely access information and collaborate from virtually anywhere. However, even for companies with large IT departments, implementing and managing new cloud technologies can be a real challenge. With endless applications to choose from and the risks of data loss and downtime, it's easy to get overwhelmed.

Unmatched Control Over Your Software Portfolio

The AppSmart marketplace lets you control the purchase and administration of your software like never before. You can add new software, add licenses to your existing purchases and have consolidated billing. There's one place to manage all of your cloud purchases.

Cloud Strategy Development

From application selection to migration schedules, we'll work with you to create a plan to meet your organization's unique needs and goals.

Ongoing Team Training

Training after deployment isn't commonly offered by cloud services providers. To fully realize the potential and value of your new tools, we're here.

Unlimited Support 24/7

During and following deployment, every AppSmart plan comes with unlimited, North America-based technical support 24/7, 365 days a year.

Your One-Stop Cloud Shop

With 1000+ solutions, a leading cloud services engineering team, consolidating billing, and unlimited training and support, we have you covered.

Simple, Consolidated Billing

Time spent sorting through invoices is time lost. Our adept accounting team ensures that one monthly transaction keeps all of your cloud applications running smoothly.

Transformation Without Disruption

Working with thousands of customers, we've refined our onboarding and implementation processes to ensure a smooth experience. You'll be up and running in days, not months.
